TWO THOUSAND THE FIGURE

CONGRESSMEN NOT ALL FARMERS.
BANKERS AND BUSINESS MEN
IN NUMBERS.

Much Speculation About a Possible Successor of the Lamented Prather.
Much Interest in Bryan and Brazos County.

The Farmers' Congress is big enough and strong enough to stand criticism of all kinds and not feel it or know it. It is a bigger success than it ever was, and that is perhaps why some pretty good fellows feel at liberty now to talk about it—they realize in their hearts that what they say one way or another will amount to but little—the Congress is big enough to stand it.

The Houston Chronicle correspondent took several shots at the Congress after spending part of the first day on the grounds, and coming face to face with the need of writing some stuff that had "go" and "snap" to it. He didn't know much to write, so he took the easy road and wrote a "roast." He said the Congress is the creature of the railroads and the A. and M. College, and the crowd came because the roads gave the farmers free passes. He said the sessions of the associations were not attended, and a whole lot like that.

Now, for a fact, there were on the second day ten very largely attended sessions of farmer's organizations, and the attendance and interest were such as never was known before in these independent farmers' meetings.

The third day was a repetition of the second in this respect, and the Congress closed yesterday universal satisfaction depicted upon the faces of the delegates.

This congress has given more practical instruction to more farmers than any other agency has ever imparted in Texas before in the same length of time. There were many people here for an "outing," it is true, but of the many who came to play, quite a number "remained to pray."

Railroad Commissioner Colquitt made a speech Wednesday night. He took quite a tilt at the railroads for their alleged habits of grafting and overcharging, and made a speech calculated to create some discontent along these lines. The commissioner is an aspirant for gubernatorial honors, and made a favorable impression on many of the farmers, and provoked some unfavorable criticism as well, by talking about the railroads before a thousand people who almost to a man were brought to where they were by the courtesy of the railroads, on "free passes." Colonel Colquitt made no mention whatever of his aspirations for the governorship.

Although subject to criticism as being a little hasty, yet there was no little talk among the visitors about the probable successor of Col. W. L. Prather as president of the University. And unfortunately for the A. and M. College, much of the talk concerns a supposed probability that Dr. D. F. Houston will be asked to take the chair left vacant by the visit of the grim reaper. Many friends of the College shake their heads and say they fear the College will lose the man who has done so much in recent years to make it great. University students and alumni make no concealment of their hope that Dr. Houston will succeed the lamented Prather, for they say that being the most eminent educator in Texas, he is the man pointed to by the hand of destiny to lead the state's greatest institution of learning.

The A. and M. College cannot afford to lose Dr. Houston if he can be kept. Sentiment of Bryan people as well as friends of the College everywhere is almost

unanimous to this effect. It is unseemly to go extensively into such a discussion at the present time, but from now on it will be a live topic, just the same. It is not known, of course, that Dr. Houston would accept the presidency of the university if tendered, but it is feared that he might, though doubtless with great reluctance, be persuaded to do so.

Not a soul less than two thousand people came to the College during the Congress. They came and went every day, and not so many as this were present at any one time, but a great number of farmers, bankers and business men generally of Texas have come and seen the College, and have gone away impressed with its importance.

Bankers? They were there in greater numbers, in proportion to their numerical strength in Texas than any other class of business men. Hot air merchants were numerous, also, and in good training, so extremes met at the Farmers' Congress.

Much interest was expressed by some of the congressmen in Bryan and Brazos county, on account of the fine agricultural exhibit made by this county. Many questions were asked, and land values especially were the subject of much inquiry.

The Congress adjourned yesterday afternoon, following the reelection of Prof. J. H. Connell as president and the election of Mr. C. Hanson of Rockdale as secretary.

Burt Norwood returned from a three weeks' visit to Brownwood yesterday, and says he gained ten pounds in weight during his absence. Mrs. Norwood and little daughter and Mrs. Nabors remained for a longer visit.

CEDED TO UNCLE SAM.

Government Acquires Strip of Land on Galveston Island.

Austin, July 27.—The governor has signed a document which has been approved by the attorney general in which the state cedes to the Federal government a strip of land adjacent to Fort Crockett on Galveston Island. This land is to be used for government purposes.

Railroad Commissioner Mayfield gave out a statement in which he declared that the commission is doing all in its power to secure all data and information possible bearing on refrigeration and icing charges, which matter comes up for hearing in August. The commission, he says, is determined to break up monopoly and exorbitant charges now said to be prevailing.

SWALLOWED BURR.

Peculiar Mishap That Happened to a New Braunfels Boy.

New Braunfels, Tex., July 27.—A peculiar accident befell the ten-year-old son of Fritz Bloedorn. He was trying to blow a grassburr off the palm of his hand. In some way he sucked it down his throat and it lodged in his windpipe. So far the doctors have been unable to extricate it and he was carried to the hospital in San Antonio for an operation. The boy has not been able to speak since the accident.

NEGRO THE TARGET.

In Trying to Break Into a Back Door He Was Riddled.

Houston, July 27.—At an early hour on Thursday morning, in a fashionable section of the city, a negro attempted to break into the back door of a residence. The entire neighborhood was aroused. Two citizens armed with revolvers and another carrying a shotgun completely riddled the prowler.

AGED WOMAN DIES.

"Grandma Smith" Was Nearly One Hundred and Two Years Old.

Redrock, Tex., July 27.—"Grandma Smith," who would, had she lived until Jan. 1 next been 102 years of age, is dead here. She was born in 1804 in the state of Georgia and came to Texas in early days. Her oldest daughter is nearly eighty years of age and the youngest sixty. She leaves a host of grand and great-grandchildren.

Attempted to Search Joins.

Denison, Tex., July 27.—Deputy Constable Sans Rich of Sherman attempted to search twenty-one Denison joints for intoxicants. A mob threatened violence unless the papers were turned over to local officers. Rich placed the search warrants in the hands of Constable J. R. Duer for service.

Admitted to Bail.

Franklin, Tex., July 27.—In an examining trial held before Justice W. S. Conner, T. C. Holton, charged with the murder of County Clerk R. H. Rucker, his son-in-law, was admitted to bail in the sum of \$5000.

INSURANCE

This is quite a feature of my business. I represent two strong and liberal companies, whose contracts are free from the usual numerous restrictions that some other companies have, which really have the effect of insuring the company instead of the insured. No trouble to explain the policies and quote rates. ACCIDENT TICKETS—These are adapted to persons who do not desire yearly insurance, but who wish protection on short trips, etc. I issue them without written application, taking effect immediately.

I am agent at Bryan for the Oliver Typewriter, the only standard visible writing machine.

BEWARE OF SUMMER GERMS.

Will Cause Sickness Unless Stomach is Strengthened With Mi-o-na.

One tablet of Mi-o-na taken before each meal during the summer months, whenever the stomach is out of order, or the digestion weak, will do more than any other treatment to prevent the diseases caused by germs at this season.

If the stomach is weak so that food does not readily digest in it, the food will become a sour slimy mass in the digestive organs, the ideal condition for germs to cause bowel trouble, diarrhoea, or other summer illness.

Mi-o-na will soothe and heal the irritated mucous membrane of the stomach and digestive tract, stimulate the solar plexus, and strengthen the whole nervous system. This remarkable remedy will make the whole digestive system so healthy clean and sweet that food cannot ferment, and any disease germs which may enter the stomach will be destroyed.

Just one small tablet out of a 50 cent box of Mi-o-na before eating, and you will have no headaches, back-ache, poor appetite, distress after eating, heart-burn, furred tongue, sleeplessness, or general debility. It will tone up the digestive system and give perfect health and strength.

Take Mi-o-na now, and E. J. Jenkins will guarantee to refund the money if it does not cure. The risk is all his.

SELL US YOUR LIFE INSURANCE POLICY.

We will pay you more money than the companies do for their own policies. Tontine and deferred dividend policies preferred. See us for particulars. T. R. Batte & Co. 202

Liquors Returned.

Terrell, Tex., July 27.—City Marshal Woodall returned the confiscated liquors taken from frosty joints and other places here a few days ago as evidence against the parties in whose charge they were found. Justice T. L. Frank after making investigation in the matter, directed that the suspicious liquors be returned to the owners, as there was not sufficient evidence in the liquors alone to convict the parties in whose possession they were found.

INSURANCE OF ALL KINDS.

Fire, Life, Accident, Health, and Live Stock. Insurance in the best companies on earth, and at the lowest rates. We make our own rates. 202 T. R. Batte & Co.

Parks & Waldrop are clearing out their entire stock of Spring and Summer suits at great reductions in prices. 202

The Madisonville reunion has been in full blast the past two days and includes today. Attendance is large.

The ice plant has resumed operations after making the necessary repairs on machinery.

Mr. and Mrs. J. C. Wheeler of Houston are visiting Mr. and Mrs. J. M. Collier.

There are no better values or we'd have them. Wagner & Brandon.

Dr. Zulch of Willow Hole was in the city yesterday.

CONCEALING OF CASES

Several Yellow Fever Patients Are Just Ascertained.

ITALIANS ARE AFRAID

Arbitrary Restrictions In Regard to Attending Funerals Are Not In Vogue, Mosquitoes Thought Only Transmitters.

New Orleans, July 27.—As the result of the decision of the state board of health to make six-day detention immediately effective four fruit ships bound for New Orleans have been ordered to Mobile, which city is understood to be willing to receive them.

One case of yellow fever has appeared at Cannery, five miles from Fort St. Phillip, sixty miles below the city. It is that of an Italian woman, who escaped from the French market district. Lieutenant Colonel Maus, United States army, has returned from that place. There are no present intentions to move the garrison. Dr. R. T. Ames is to be stationed at Jackson barracks. There is no fever at that post.

Italian societies are taking a hand with priests of their nationality with a view of aiding the authorities. The only serious alarm here has been among the Italians. Many of them living in the French market section are ignorant and superstitious, and when the fever began to rage they became frightened and those not down with it fled to friends in other sections of the city and to the surrounding country. That is why the fool has been distributed. There is still alarm among them and Italian societies and priests will try to reassure them, interest them in sanitation and pledge them to promptly report cases of illness among them. Several cases of concealed fever have been reported by Italian societies.

Formerly in yellow fever epidemics here houses containing cases have been flagged. It has not yet been decided to flag cases this year. Arbitrary restrictions against attendance at funerals have been modified in the belief that only the mosquito can transmit the disease. Publication of lists of cases and their location has not been made, but records are open to inspection and health officials are mapping all foci and promptly screening them.

To enable passengers from the east to proceed westward without annoyance or difficulty via New Orleans the Southern Pacific railway is now operating its trains from Esplanada ferry landing, where direct connection is made with Louisville and Nashville trains without transfer through the city as heretofore.

Patients are being received at the emergency yellow fever hospital. Accommodations for seventy-five cases have been provided. These will be steadily increased.

No report of additional new cases of deaths from yellow fever were made public by the city board of health in the early hours of Thursday. There was an unofficial report of a number of new cases. Official report was made Thursday of twelve new cases and six deaths occurring in the preceding twenty-four hours. Of the twelve new cases nine are Italians. Six of the cases are at 522 and 524 St. Philip street, showing the principal infection to be still in the vicinity of the French market. Only two of the cases are in the upper part of the city. Of the deaths one occurred in a hospital, two up town and the other three in the French market district. Health authorities after a study of food expressed the opinion that there is still hope of eradicating the disease before fall, and that in any event with the precautions being taken a serious epidemic is entirely out of the question.

WROTE MISS ALICE.

President's Oldest Daughter Recipient of Love Letters From Private Jones.

New York, July 27.—Private James G. Jones of the regular army, who has been serving a term of imprisonment on Governor's Island for desertion from his command at Fort Banks, Mass., has been removed from Castle William by special order to be examined by a board of lunacy. Although great secrecy has been maintained the World states it has learned that Private Jones has been sending love letters to Miss Alice Roosevelt. More than a score are said to have reached her through the mail and the matter was placed in the hands of secret service agents. Jones finally sent a sharp note to Mrs. Roosevelt in which he charged the latter with standing between the president's daughter and himself. Secret service men soon located the writer of the letters, but are unable to learn how he managed to mail them. Some of them expressed the belief he was feigning insanity.

Opened Easy.

New York, July 27.—Cotton market opened easy Thursday at a decline of 9 to 14 points under active liquidation and bear pressure, prompted by lower cables and good weather, but after increasing decline to matter of 16 to 19 points points there was a rally on covering to within 3 or 4 points of Wednesday night's finals and there seemed to be a support by bulls on advance. Trading was fairly active during the early session, and after opening break market was generally steady.

Destroyed by Fire.

Hattiesburg, Miss., July 27.—Plant of Naval Stores company, at Lumberton, Miss., was destroyed by fire. Damage is \$40,000, covered by insurance.

Deaths Number Sixty-Two.

San Diego, Cal., July 27.—S. Tacato, a Japanese mess student, and H. A. Metius, pay clerk of the Bennington, have died.

Three family residences one block north of courthouse square from \$850 to \$1500.

Beautiful building lots fronting graded school. Lots in Cavitt's addition for sale cheap.

Joe B. Reed residence, an elegant home and suitable for private boarding house and convenient to Main street.

V. B. Hudson two story residence, a good comfortable home and all modern conveniences and near graded school.

Jno. Keistler place, price \$950.

Lots and houses of all kinds and descriptions in any part of town to rent and for sale. Most of this property can be bought on time by paying one third cash.

Lots improved for parties desiring us to do so. Will sell, rent and exchange property in any part of the state.

We have a number of good upland and creek bottom farms that we offer at bargains.

We also have Brazos bottom lands for sale in any sized tracts desired, improved and unimproved, the richest land in the world.

We have hog and cattle ranches for sale in Brazos and Burleson counties and large cattle ranches in Western Texas and Mexico.

Loans negotiated.

We have property listed with us for sale and exchange in most every part of Texas, both city and country property.

We buy real estate as well as sell it.

INSURANCE.

We are prepared to insure any kind of insurable property—stores, stocks of merchandise, machinery, corporation property, warehouses, cotton, country property, gins, etc.

We can insure your life in the best companies on earth for a less premium than many companies charge for the same class of property. This is important, as statistics inform us that while Fire Insurance is a good thing, Life Insurance is more important as out of 1200 fire risks one burns, where every man who insures his life dies.

**ONE
MINUTE**

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup.

Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. I quickly secured a bottle of One Minute Cough Cure and gave her three doses half an hour apart. The croup was mastered and our little darling speedily recovered. I cannot praise One Minute Cough Cure too much for what it has done in our family.—A. L. Spafford, Postmaster, Chester, Mich.

SECRET SESSIONS.

Both Houses of the Riksdag Discuss Special Committee Report.

Stockholm, Sweden, July 27.—Both houses of the riksdag have held secret sessions to discuss the report presented of the special committee appointed by the riksdag to deal with the crisis

NORWEGIANS RAISING THE FLAG OF INDEPENDENCE.

between Norway and Sweden. It is understood the report is approved in principle. Some regret is expressed at the resignation of the Swedish government before the riksdag had acted on the committee's report as it feared it may impede progress towards the solution of difficulties between Sweden and Norway.

COTTON ACREAGE.

Crop Estimating Board of Agricultural Department Reports.

Washington, July 27.—Assistant Secretary of Agriculture Hays reported to Secretary Wilson on the acreage of cotton in southern states in 1905 as compared with 1904. The report is signed by the four members of the crop estimating board and approved by Messrs. Wilson and Hays. It is as follows:

"The crop estimating board of the agricultural department has considered the report issued by the bureau of statistics on July 29 relative to the acreage planted in cotton in the southern states in 1905 as compared with that planted in 1904, and has concluded:

"First, that a new estimate should be made in acreage planted and that the figures in Mr. Hyde's hands when making the estimate should be used as the basis.

"Second, that Mr. Hyde, with Mr. Holmes at his elbow prompting him, made the estimate lower than the facts at his hand from the reports from the seven classes of reporters employed by the bureau warranted.

"Third, the board finds, upon careful consideration of the reports of all classes of correspondents and agents, that the acreage planted in cotton this year, including the entire season should have been estimated at 85.1 per cent of that planted last year, equivalent to a reduction in planted acreage as compared with last year of 14.9 per cent (instead of 11.4 per cent) or 4,731,000 acres, the estimate of the total acreage planted this year being 26,999,000 acres.

"The estimated percentage of the decrease in each of the cotton growing states is as follows:

Virginia, 8; North Carolina, 16; South Carolina, 14; Georgia, 14; Florida, 12; Alabama, 12; Mississippi, 14; Louisiana, 16; Texas, 17; Arkansas, 19; Tennessee, 13; Missouri, 15; Oklahoma, 15; Indian Territory, 11.

"The averages were made by each state by each of the four members of the board and the comparatively small disagreements were harmonized almost wholly by averaging and the above results are fully agreed to by each and every member of the board."

TO REMOVE

Freckles and Pimples

IN TEN DAYS, USE

SATINOLA

The Complexion Beautifier

SATINOLA is a new discovery, guaranteed, and money refunded if it fails to remove the worst case of Freckles, Pimples, Tan, Liver Spots, Sallowness, Black-heads, or any other skin eruption in 20 days—leaves the skin clear, soft, healthy and restores the beauty of youth. Thousands testify to the merits of Satinola.

Miss Alice Lirette writes:—Thibodeaux, La., Oct. 15, '04. "For four years my face was completely covered with freckles and pimples. All remedies failed, until I used two packages of Satinola, which completely removed the freckles and pimples. My complexion is now perfect, and hope every lady having freckles or pimples will try Satinola." Price 50c and \$1.00, by leading druggists, or mail.

SIX MORE ARE DEAD.

This Makes a Total of Forty-Two Up to Wednesday Night.

CONFERENCE SUNDAY

Physicians Are Endeavoring to Report All Cases of the Malady Just as Fast as They Are Heard From.

New Orleans, July 27.—Six deaths from yellow fever were recorded Wednesday up to 6 p. m., making a total of forty-two. The number of new cases reported Tuesday, but compiled Wednesday, is eleven, making all told to date 165. There are now nineteen foci of infection.

The organization of forces for fighting the spread of the infection and for a campaign of education and practical application of the mosquito extermination plans, has been completed, and besides 100 men put on as extras to clean gutters by the city, 350 men are working as part of the system of sanitation. Citizens are being organized in wards, and these ward clubs will form precinct clubs, and a house to house canvass will be made to assure the screening of every cistern and the oiling of every cesspool and water pond. The business men have provided the funds for this work, and as the people are now aroused to the necessity of action, there will be no let up.

In view of the many quarantine complications which have arisen, Dr. Souchon has called a conference here next Sunday of the health officers of Texas, Mississippi and Alabama, to discuss quarantine regulations and devise a system by which travelers can be admitted with certificates of the marine is in charge of all the government work, will be present and participate.

The work of locating the detention hospital service, Surgeon White, who camps is progressing, though it has been slower than at first anticipated. The residents of Kenner, fourteen miles from New Orleans on the Illinois Central road, objected to the camp and it was located at Harahan, near the railroad gravity yards. The locations of the other camps have been fixed and supplies are now being sent to them.

The infection in the original focus seems to be dying out, as fewer cases seem to be dying out, as fewer new cases are being reported from there, which is a hopeful sign, indicating that the modern methods have been effective. The work now is to locate the new foci and treat them in the same manner. Physicians are now reporting all cases of fever and wherever there is the slightest suspicion rigid sanitary rules are applied with the result that, up to now, there has been no spread of any case from any of these foci. Those which are developing are all traceable directly to the original focus in the Italian quarter.

COLLECTOR'S ORDERS.

Vessels Arriving From New Orleans Required to Be Detained.

Norfolk, Va., July 27.—Collector of Customs R. G. Banks of Norfolk received from Dr. John Bogges, who is in charge of the United States marine hospital quarantine service for the Cape Charles district, a dispatch advising him that he should not permit any vessel hailing from New Orleans to enter at the custom house here unless her master first presents a certificate from him showing that she has remained in quarantine off Old Point Comfort the five days required by the regulations of the service. Shipping concerns also have been notified that vessels from New Orleans will be obtained.

More Yellow Fever Cases.

Washington, July 27.—The Panama canal commission Wednesday received a cablegram from Governor Magoon reporting that Louis Strand, a Swedish employee, was taken sick with yellow fever at Matchin July 20, and that J. C. Sutherland a Scotch employee, was stricken at Culebra July 21. Governor Magoon further reported that Albert C. Berger, an American employee at Panama, whose home is at Cleveland, O., and who was taken sick July 19 is dead.

Suspicious Case.

Washington, July 27.—The officials of the marine hospital service are investigating a reported suspicious case of fever which is said to have developed on the line of the Texas and Pacific railway about seventy-five miles from New Orleans.

Ten Suspicious Cases.

New Orleans, July 27.—A report to the marine hospital service from Bay St. Louis, Miss., states that ten suspicious cases of yellow fever have developed at Back Bay, in that section.

HORRIBLE CRIME.

Threatened to Kill Baby if the Mother Screamed.

Hattiesburg, Miss., July 27.—The country three miles east of here on the New Orleans and Northwestern railway is in a turmoil over a case of criminal assault, perpetrated by a strange white man upon Mrs. John Birge, the wife of the railroad section foreman at that point.

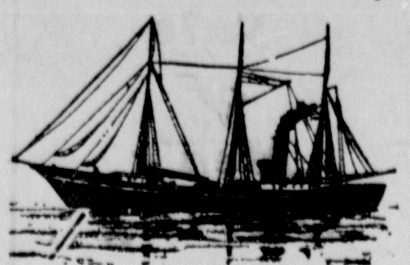

The woman was at home alone with her baby, her husband being at work. The stranger entered through a window, thrust on her face a handkerchief saturated with chloroform and pointed to the baby asleep on the cot, saying: "If you scream or say a word, I'll throw that babe on the floor and stamp its brains out with my heels."

When her husband returned he found his wife on the floor still unconscious. It was several hours before she was able to give a coherent account of what had happened. Searching parties were hastily formed, but the criminal had such a long start that he has so far eluded his pursuers.

PEARY DEPARTS.

Steamer Roosevelt Leaves North Sydney For North Pole.

North Sydney, B. C., July 27.—The steamer Roosevelt, with Commander R. E. Peary on board, started from here on the voyage toward the North pole

THE ROOSEVELT.

at 2 o'clock Wednesday afternoon. Commander Peary's final words indicated his firm belief in the successful outcome of the present expedition and a reiteration of the statement that if successful he should return by September, 1906.

CHINA'S CONSENT.

Some Doubt Expressed as to Whether It Can Be Secured.

Washington, July 27.—Some doubt is expressed in official circles as to whether it will be possible to obtain China's consent to another treaty with the United States providing even for the exclusion of Chinese laborers from this country. The state department is aware of the ill feeling throughout China on the whole subject, and now that the immigration treaty with China has been allowed to lapse without negotiation of a new agreement, reports have reached here that China is inclined hereafter to refuse to sign any similar convention. China's position appears to be that the exclusion of Chinese citizens from a friendly country is in itself a disgrace, and while she cannot ignore the laws of a foreign power providing for such exclusion, she can refuse to sanction it or become a party to it, by concluding a treaty involving such restrictions. A year ago, it is said, it would have been easy to conduct negotiations with China for exclusion of Chinese laborers only. Now, however, it is understood, Chinese officials are disposed to regard signing of such treaty beneath the dignity of their government. Reason for the assumption at Peking of this new attitude is not quite clear to officials here, though in some circles it is attributed to the influence of foreign powers.

RATHER ANXIOUS.

San Francisco Merchants Worried Over Chinese Boycott Rumors.

San Francisco, July 27.—Local merchants interested in trade with China have been rather anxious over rumors afloat that the Chinese boycott against American goods had gone into effect, that all big milling and flour companies had received notice to stop orders from their agents in the orient and that existing contracts had been cancelled. China buys about \$220,000,000 worth of foreign goods annually. Of this amount about \$20,000,000 goes from the United States, of which about \$4,000,000 comes from San Francisco. Of this amount nearly one-third is flour, about 500,000 barrels being exported.

Boycotting to Be Discussed.

Shanghai, July 27.—Native bankers here are calling a meeting to discuss the proposal to boycott the International Banking corporation, an American institution.

Statement Corrected.

Washington July 27.—In the revised cotton report issued Wednesday by the department of agriculture an error was committed in the second paragraph, which made it appear that the June estimate by Mr. Hyde was made "lower than the facts at hand warranted, when in fact it was made higher." The erroneous statement has been corrected by the department.

Heard Six Witnesses.

Washington, July 27.—The grand jury investigating the cotton report scandal heard six witnesses Wednesday, four of them being from New York. It is believed that the investigation will continue for two weeks.

Women May Vote.

Melbourne, Victoria, July 27.—The Victorian assembly has passed a bill granting the elective franchise to women.

NEWS IN BRIEF.

Ennis (Tex.) Oil company will drill five wells.

During a riot at Panama several police were spanked.
